Multiplayer AI Hackathon

One team. One conversation.

Fro is your AI teammate. Ask questions, add your knowledge and improve the same prototype together. No coding needed.

Build together. Keep going together.

Your team + Fro
One shared conversation

→

One shared prototype
Build, test and improve

→

4 weeks included
Keep going in the same workspace

For business teams. No installation. No personal AI subscription. Four weeks of workspace access included.

Bring a real question.

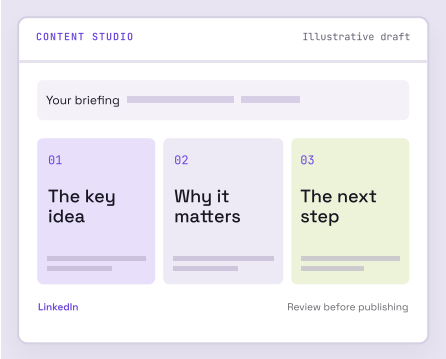

Start with a small task your team knows well. We agree the challenges together before the workshop and use approved or synthetic material.

01

What else can we make from this podcast?

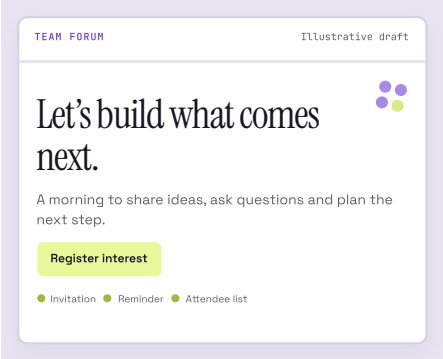

Possible result: Draft an article, newsletter and social posts from a transcript, with quotes and suggested clip timestamps.

02

Turn this briefing into social content.

Possible result: A simple tool for platform-specific drafts, carousel outlines and source checks.

03

Make event invitations easier to prepare.

Possible result: Draft invitations, reminders and an attendee overview from an event brief and example contact list.

ILLUSTRATIVE EXAMPLE · SYNTHETIC CONTENT

Ready to start. Ready to keep going.

Build together

One team. One shared workspace.

Everyone can brief Fro and add context

Shared conversation, files and live preview

See who contributed each message

Start in the browser

We prepare the setup.

No installation or coding experience needed

No personal AI subscription required

Workshop AI usage included

Use your own material

Work on a real question.

Bring approved documents, tables or transcripts

Use synthetic examples when needed

Choose from a curated set of AI models

Keep going

Four weeks included.

Return to the same workspace after the event

Keep improving your prototype with your team

Private export on request while access is open

> Leave with a prototype you can show, practical experience and a clear next step for the ideas worth continuing.

Build. Share. Improve.

A full day for up to 18 people in teams of three, with two facilitators. A focused half-day option is also available.

Full-day hackathon

09:30-16:00 · including lunch

09:30-10:00	Introduction and team briefing
10:00-11:30	Build a first version
11:30-12:00	Share progress and feedback
12:00-13:00	Lunch
13:00-14:30	Test and improve
14:30-15:00	Show the results
15:00-16:00	Reflection and next steps

Up to 18 people · 6 teams of 3 · 2 facilitators

Half-day hackathon

4 hours

30 min
Introduction and team briefing

120 min
Build, test and improve

30 min
Show the results

60 min
Reflection and next steps

3 to 4 teams · one focused question each

One hour for reflection and next steps

01
What did we learn?

02
What is worth continuing?

03
Who takes it forward?

04
What will we do in four weeks?

Four weeks included.

Return to the same workspace after the event. Keep the conversation, files and prototype together. Test the next version with your team and request a private export while access is open.

Preparation, facilitation and workshop AI usage are included. Further development with David, production hosting and support are scoped separately.

Frontira

Liberating Intelligent People *from Unintelligent Work.*

Frontira helps teams turn business challenges into practical AI applications. We combine business understanding, hands-on learning and engineering to take useful ideas further.

From the people who took part

> "Our employees are excited and want more. They want to get hands-on themselves and take their departments to the next level with Agentic AI."

Claudia Zoff
Managing Director / CEO · ALPEN-MAYKESTAG GmbH
EXCERPT · TRANSLATED FROM GERMAN

> "What impressed me most about the Frontira hackathon was what the teams created in such a short time."

Susanne Schroeder
Head of Finance & Controlling (Prokuristin) · ALPEN-MAYKESTAG GmbH
EXCERPT · TRANSLATED FROM GERMAN

SELECTED FRONTIRA CLIENTS

NVIDIA · DigitalOcean · SPAR · Austria Tourism

What would your team build?

Tell us who should take part and which questions matter. We will help you choose the format and prepare the day.
